The Gibson Relays Prentice Hall  
Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade.

**A Dictionary of Sports Studies** Amer Eagle Publications Incorporated  
Running is a fundamental human activity and holds an important place in popular culture. In recent decades it has exploded in popularity as a leisure pursuit, with marathons and endurance challenges

exerting a strong fascination. Endurance Running is the first collection of original qualitative research to examine distance running through a socio-cultural lens, with a general objective of understanding the concept and meaning of endurance historically and in contemporary times. Adopting diverse theoretical and methodological approaches to explore topics such as historical conceptualizations of endurance, lived experiences of endurance running, and the meaning of endurance in individual lives, the book reveals how the biological, historical, psychological, and sociological converge to form contextually specific ideas about endurance running and runners. Endurance Running is an essential book

for anybody researching across the entire spectrum of endurance sports and fascinating reading for anybody working in the sociology of sport or the body, cultural studies or behavioural science.

**Handbook of Research on Managing and Influencing Consumer Behavior**

Brookings Institution Press

Ever since Newton Minow taught us sophisticates to bemoan the descent of television into a vast wasteland, the dyspeptic chorus of jeremiahs who insist that television news in particular has gone from gold to dross gets noisier and noisier. Charles Ponce de Leon says here, in effect, that this is misleading, if not simply fatuous. He argues in this well-paced, lively, readable book that TV news has changed in response to broader changes in the TV industry and American culture. It is pointless to bewail its decline. "That's the Way It Is" gives us the very first history of American television news, spanning more than six decades, from Camel News Caravan to Countdown with Keith Oberman and The Daily Show. Starting in the latter 1940s, television news featured a succession of broadcasters who became household

names, even presences: Eric Sevareid, Walter Cronkite, David Brinkley, Peter Jennings, Brian Williams, Katie Couric, and, with cable expansion, people like Glenn Beck, Jon Stewart, and Bill O'Reilly. But behind the scenes, the parallel story is just as interesting, involving executives, producers, and journalists who were responsible for the field's most important innovations. Included with mainstream network news programs is an engaging treatment of news magazines like "60 Minutes" and "20/20," as well as morning news shows like "Today" and "Good Morning America." Ponce de Leon gives ample attention to the establishment of cable networks (CNN, and the later competitors, Fox News and MSNBC), mixing in colorful anecdotes about the likes of Roger Ailes and Roone Arledge. Frothy features and other kinds of entertainment have been part and parcel of TV news from the start; viewer preferences have always played a role in the evolution of programming, although the disintegration of a national culture since the 1970s means that most of us no longer follow the news as a civic obligation. Throughout, Ponce de Leon

places his history in a broader cultural context, emphasizing tensions between the public service mission of TV news and the quest for profitability and broad appeal."

**MITRE Systems Engineering Guide** Fep International

NEW YORK TIMES BEST SELLER • From the world's leading forest ecologist who forever changed how people view trees and their connections to one another and to other living things in the forest—a moving, deeply personal journey of discovery Suzanne Simard is a pioneer on the frontier of plant communication and intelligence; her TED talks have been viewed by more than 10 million people worldwide. In this, her first book, now available in paperback, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the fascinating and vital truths—that trees are not simply the source of timber or pulp, but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives

not that different from our own. Simard writes--in inspiring, illuminating, and accessible ways—how trees, living side by side for hundreds of years, have evolved, how they learn and adapt their behaviors, recognize neighbors, compete and cooperate with one another with sophistication, characteristics ascribed to human intelligence, traits that are the essence of civil societies--and at the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the others that surround them. And Simard writes of her own life, born and raised into a logging world in the rainforests of British Columbia, of her days as a child spent cataloging the trees from the forest and how she came to love and respect them. And as she writes of her scientific quest, she writes of her own journey, making us understand how deeply human scientific inquiry exists beyond data and technology, that it is about understanding who we are and our place in the world.

#### Daily Labor Report Vintage

Managing a retail operation in a salon or spa can be a daunting task. To the technician learning business skills, Retail

Management for Salons and Spas is a fantastic resource. This text provides essential business information and a clear understanding of what it takes to run a profitable retail operation while overseeing the day-to-day operations. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

#### The BCTGM News Addison-Wesley Professional

From the New York Times bestselling author of A Constellation of Vital Phenomena—dazzling, poignant, and lyrical interwoven stories about family, sacrifice, the legacy of war, and the redemptive power of art. This stunning,

exquisitely written collection introduces a cast of remarkable characters whose lives intersect in ways both life-affirming and heartbreaking. A 1930s Soviet censor painstakingly corrects offending photographs, deep underneath Leningrad, bewitched by the image of a disgraced prima ballerina. A chorus of women recount their stories and those of their grandmothers, former gulag prisoners who settled their Siberian mining town. Two pairs of brothers share a fierce, protective love. Young men across the former USSR face violence at home and in the military. And great sacrifices are made in the name of an oil landscape unremarkable except for the almost incomprehensibly peaceful past it depicts. In stunning prose, with rich character portraits and a sense of history reverberating into the present, *The Tsar of Love and Techno* is a captivating work from one of our greatest new talents.

#### **Understanding SSI (Supplemental Security Income)** Little, Brown Books for Young Readers

This atlas illustrates the latest available data on the cancer epidemic, showing causes, stages of development, and prevalence rates of different types of

cancers by gender, income group, and region. It also examines the cost of the disease, both in terms of health care and commercial interests, and the steps being taken to curb the epidemic, from research and screening to cancer management programs and health education.

*The Tsar of Love and Techno* Penguin  
'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect them to. It is also about things the information explosion is destroying: old assumptions about who is really in control of our lives.

*The Structuring of Organizations* American Bar Association

The Cold War was fought in every corner of society, including in the sport and entertainment industries. Recognizing the importance of culture in the battle for hearts and minds, the United States, like the Soviet Union, attempted to win the favor of citizens in nonaligned states through the soft power of sport. Athletes became de facto ambassadors of US interests, their wins and losses serving as emblems of broader efforts to shield

American culture--both at home and abroad--against communism. In *Defending the American Way of Life*, leading sport historians present new perspectives on high-profile issues in this era of sport history alongside research drawn from previously untapped archival sources to highlight the ways that sports influenced and were influenced by Cold War politics. Surveying the significance of sports in Cold War America through lenses of race, gender, diplomacy, cultural infiltration, anti-communist hysteria, doping, state intervention, and more, this collection illustrates how this conflict remains relevant to US sporting institutions, organizations, and ideologies today.

**The Giver** Chronicle Books

A last chance at swimming gold, a second chance at lasting love. Team captain. Olympic medalist. Devoted son and brother. Alex has it all, and all the demands that go with being the best. The last thing he needs on his crowded plate—and on his team—is his closeted ex. Dane is swimming's biggest star. Carefully crafted from crib to pool, his fame feeds his celebrity parents' empire. **The Child who Never Grew** Layla Reyne  
An account of the sorrow and the spiritual rewards the author experienced as the mother of a retarded child.

*Hooked on Games* Knopf

Telemedicine—the use of information and telecommunications technologies to provide and support health care when distance separates the participants—is receiving increasing attention not only in remote areas where health care access is troublesome but also in urban and suburban locations. Yet the benefits and costs of this blend of medicine and digital technologies must be better demonstrated before today's cautious decision-makers

invest significant funds in its development. Telemedicine presents a framework for evaluating patient care applications of telemedicine. The book identifies managerial, technical, policy, legal, and human factors that must be taken into account in evaluating a telemedicine program. The committee reviews previous efforts to establish evaluation frameworks and reports on results from several completed studies of image transmission, consulting from remote locations, and other telemedicine programs. The committee also examines basic elements of an evaluation and considers relevant issues of quality, accessibility, and cost of health care. Telemedicine will be of immediate interest to anyone with interest in the clinical application of telemedicine.

Cengage Learning

About the Book The multi-billion dollar video game industry is in the business of creating fun and enticing games that can be addictive. As addicted gamers feast on digital indulgences, real life is neglected and their reality crumbles around them. Headlines related to video games: ¿New Mexico mom gets 25 years for starving

daughter.¿ ¿ Fox News ¿China used prisoners in lucrative Internet gaming work.¿ ¿ Guardian News ¿Online gamer killed for selling virtual weapon.¿ ¿ Sydney Morning Herald ¿South Korean dies after games sessions.¿ ¿ BBC News Hooked on Games is written by Brooke Strickland and Andrew Doan, MD, PhD, a physician with a research background in neuroscience, who battled his own addictions with video games. Dr. Doan was an addicted gamer, who at his peak, invested over 20,000 hours of playing games over a period of nine years. Dr. Doan¿s reckless compulsion to play games transformed him into a monster that almost destroyed his family, marriage, and career. He shares his expertise to educate others on the dangers of video game addiction and to provide hope for video game addicts and their families. Dr. Doan shares steps for gaming addicts to achieve recovery and steps for families and loved ones to intervene. Without attention to this quickest growing addiction, our society will suffer from the creation of Generation Vidiot, millions of people devoid of innovation and skills to live in the physical world. ¿As is true with many addictions,

overuse of video games steals our valuable and limited time and minds.¿ ¿ Christie Morse, MD (Pediatric Ophthalmologist) ¿Shocking insights into the minds of hardcore gamers.¿ ¿ Daniel Hunt (Former Competitive Gamer) **Retail Management for Salons and Spas** Bloomsbury Publishing USA Effective marketing techniques are a driving force behind the success or failure of a particular product or service. When utilized correctly, such methods increase competitive advantage and customer engagement. Advertising and Branding: Concepts, Methodologies, Tools, and Applications is a comprehensive reference source for the latest scholarly material on emerging technologies, techniques, strategies, and theories for the development of advertising and branding campaigns in the modern marketplace. Featuring extensive coverage across a range of topics, such as customer retention, brand identity, and global advertising, this innovative publication is ideally designed for professionals, researchers, academics, students, managers, and practitioners actively involved in the marketing industry.

### Corporate Giving Directory Houghton Mifflin Harcourt

NEW YORK TIMES BEST SELLER • From the indie rock sensation known as Japanese Breakfast, an unforgettable memoir about family, food, grief, love, and growing up Korean American—"in losing her mother and cooking to bring her back to life, Zauner became herself" (NPR) • CELEBRATING OVER ONE YEAR ON THE NEW YORK TIMES BEST SELLER LIST In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over

heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread.

**IEG Sponsorship Sourcebook** Hogarth One-in-seven adults and one-in-five children in the United States live in poverty. Individuals and families living in poverty—not only lack basic, material necessities, but they are also disproportionately afflicted by many social and economic challenges. Some of these challenges include the increased

possibility of an unstable home situation, inadequate education opportunities at all levels, and a high chance of crime and victimization. Given this growing social, economic, and political concern, The Hamilton Project at Brookings asked academic experts to develop policy proposals confronting the various challenges of America's poorest citizens, and to introduce innovative approaches to addressing poverty. When combined, the scope and impact of these proposals has the potential to vastly improve the lives of the poor. The resulting 14 policy memos are included in *The Hamilton Project's Policies to Address Poverty in America*. The main areas of focus include promoting early childhood development, supporting disadvantaged youth, building worker skills, and improving safety net and work support.
