In this edition I have endeavoured to keep down additions as much as possible, so as not to overload the book; but I have not been sparing in adding cross-references (especially in the Index) and quotations from standard authors. These quotations seldom give the first occasion on which a proverb has been used, as in most cases it is impossible to find it. I have placed an asterisk before all recognised proverbs; these will serve as a first course for those students who do not wish to read through the whole book at once. In a few cases I have added explanations of English proverbs; during the eleven years I have been using the book I have frequently found that pupils were, for instance, as ignorant of "to bell the cat" as they were of "attacher le grelot."

The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the

conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

Grand Dictionnaire Universel [du XIXe Siecle] Francais: A-Z 1805-76 Editions Gallimard

Ceux qui sont nés, comme l'auteur de ce livre, dans les dernières années du siècle précédent, qui ont eu leurs vingt ans au front, avaient encore grandi non seulement sans autos ni avions, ni radios, mais même, s'ils n'étaient pas riches, sans l'électricité chez eux. Lorsqu'ils sont tombés, à peine sortis de l'enfance, dans la machinerie de l'autre guerre, ils n'avaient eu pour formation que les humanités classiques, la morale de Kant, le symbolisme et les marches à pied. Depuis, en une quarantaine d'années, à un rythme presque infernal, ils ont dû avaler, venant d'ailleurs un peu pêle-mêle, la révolution russe, les guerres civiles en Europe, la psychanalyse, la dialectique hégélienne, le marxisme, la phénoménologie, l'existentialisme, le national-socialisme, l'invasion de la France, la dislocation des empires coloniaux, la physique nucléaire, les bombes atomiques, le retournement contre l'Europe occidentale des idées et des connaissances qu'elle avait produites et qu'elle continuait à produire, la fin de son hégémonie. C'était peut-être beaucoup. C'était peut-être trop ? Le résultat en a peut-être été la rupture définitive avec le passé ? C'est ce que se demande Brice Parain. Il a eu souvent le sentiment qu'il risquait de se perdre, que courir les routes, se déplacer en avion, téléphoner un peu partout, savoir qu'il existe des camps de concentration en Europe, regarder de la peinture dite

abstraite, faire tout dépendre de l'avenir, ne pouvait rien avoir de commun avec la vie qu'il avait menée au temps des gendarmes à cheval et des lampes à pétrole. Ce sentiment lui a fait peur. Il a voulu y réfléchir. L'Occident s'était peut-être trompé, à un moment ou à un autre ? La liberté, telle qu'il l'a définie, a engendré la solitude et la solitude engendre le suicide. L'Occident a peut-être sacrifié la vie à ses ambitions ? Faudra-t-il qu'il rapprenne à vivre pour éviter de périr ? Brice Parain ne se résout pas à s'en tenir à la dialectique comme méthode de raisonnement pour comprendre l'histoire et la vie. Il croit que la dialectique est pareille à une ligne tortueuse qui a pourtant un axe. La connaissance de cet axe rétablirait une logique, qui permettrait de refaire une morale. Ajoutons qu'il sait le russe, s'étant mis à l'apprendre très vite après son retour de la Grande Guerre, en 1920. Depuis, sa réflexion s'est largement alimentée à la confrontation entre l'Occident et la Russie, qui lui était toujours présente. On n'aura pas de peine à en suivre les démarches. Elles nous sont exposées à travers le récit des simples événements d'une enfance et d'une adolescence aussi passionnées de sentiments que de pensée.

In addition you'll learn how to use the most common everyday expressions from colloquial spoken French, like "Pas de problème", "Quelle horreur", "J'en ai marre", and "Ne te casse pas la tête." The key words and expressions are individually discussed and illustrated in phrases and sentences, each with a discussion of context so that you will become more comfortable with them. Not only will you recognize these expressions and key words if you hear or read them, but you will be able to use them yourself. This book will be a pleasure for you. It's one of those rare finds, a book that is both very useful and also fun to read!

A French-English Dictionary Saul Rosenthal

Cultural Encounters in Translated Children's Literature offers a detailed and innovative model of analysis for examining the complexities of translating children's literature and sheds light on the interpretive choices at work in moving texts from one culture to another. The core of the study addresses the issue of how images of a nation, locale or country are constructed in translated children's literature, with the translation of Australian children's fiction into French serving as a case study. Issues examined include the selection of books for translation, the relationship between children's books and the national and international publishing industry, the packaging of translations and the importance of titles, blurbs and covers, the linguistic and stylistic features specific to translating for children, intertextual

references, the function of the translation in the target culture, didactic and pedagogical aims, euphemistic language and explicitation, and literariness in translated texts. The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback, the antipodes, the exotic, the wild, the unknown, the void, the end of the world, the young and innocent nation, and the Far West. Contemporary signifiers that construct Australia as urban, multicultural, Aboriginal, worldly and inharmonious are seriously under-represented. The study also shows that French translations are conventional, conservative and didactic, showing preference for an exotic rather than local specificity, with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism. The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu, especially through translated children's literature.
