## RICH NEAL

### Exploring World History Thomas Nelson

After providing an accessible history of the nation, the author turns his focus to what North Korea is, what its leadership thinks and how its people cope with living in such an oppressive and poor place, arguing that North Korea is not irrational, but rather a nation that has survived against all odds.

### A Little History of the World Oxford University Press

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

### The Years of Rice and Salt Stanford University Press

Eavesdroppings recounts life in the small towns of Ontario before sin arrived on the Internet - a time when churches were never locked and parents, not wishing to be disturbed while they listened to the radio, shooed their children out to play in the dark, unguarded streets without fear. Here you'll find comedy, outrage, and tragedy but no disguise. Included are actual events and the names of all persons involved. The author tracks the quaint immorality of smalltown sin in the 1930s and its evolution from full-frontal bingo in the churches to the current degeneracy of nude women wrestling men in vats of Jell-O in licensed nightclubs, but he never moralizes. Indeed, he provides no uplifting messages at all - just gossip, which, as Oscar Wilde said, "is what history is all about and more fun."

### Return Fire 1 Random House Australia

"The Marshal's Handbook is the setting book for Deadlands Reloaded." -- From back cover

### Luboml UNESCO

The story of the former Polish-Jewish community (shtetl) of Luboml, Wołyń, Poland. Its Jewish population of some 4,000, dating back to the 14th century, was exterminated by the occupying German forces and local collaborators in October, 1942. Luboml was formerly known as Lyuboml, Volhynia, Russia and later Lyuboml, Volyns'ka, Ukraine. It was also know by its Yiddish name: Libivne.

### Fire in the Minds of Men Rowman & Littlefield

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

### Incerto 4-Book Bundle JHU Press

From veteran police detective Bernard Schaffer comes a powerful new thriller that crackles with authenticity, page-turning suspense, and spellbinding glimpses into the criminal mind . . . 'It was one thing to fantasize about evil, to reach into the darkness and play with it a little . . . ' Rookie cop Carrie Santero has always been fascinated by serial killers. As a teenager, she wrote a letter to Charles Manson in prison - and received a chilling reply. Then she came face to face with a child murderer in her small Pennsylvania town. Now, she finally has her chance to make a difference. To hunt down a psychopath who embodies the very nature of evil itself... '... But it was something different when it knew your name.' The perpetrator draws inspiration from the most twisted minds in modern crime. Ted Bundy. John Wayne Gacy. The Green River Killer. Soon Carrie and her boss, Chief Bill Waylon, realize they're dealing with an unpredictable 'omnikiller' who cannot be profiled. Their only hope is to enlist the help of Jacob Rein, a brilliant but tarnished former detective who has plumbed the darkest recesses of the soul. And whose insights on evil could lead Carrie to the point of no return... 'Tense, fast, and excellent - I loved this book' Lee Child

### The Making of Medieval Rome Pluto Press (UK)

This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical

frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared The New Republic hailed it as "remarkable, learned and lively," while The New Yorker noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

### Religion and the American Civil War Penguin

From the first page, readers are told, "None of what you are about to read is true." Over the course of the story, it becomes increasingly clear that The Girl From Tenerife screams with truths about love, loss, and literature. The narrator, swearing that he is not to be trusted, proceeds to unburden himself about the woman he craves, the children he's raising, and the books he feels compelled to write. This rich novel is filled with images of bull-fighting, the ghost of Ernest Hemingway, and the most captivating, alluring woman in recent literature. The Girl From Tenerife is "Quite a feat," (Goodreads) and a "Real romance, a bittersweet, heartbreaking romance that just happened to be wrapped up in a story about a writer trying to be a writer. Very nicely done, more than a few well-turned descriptives, and despite an assertion to the contrary, with more than a ring of truth to it" (Goodreads).

### Ralph Compton Blood of the Hunters Abingdon Press

Nassim Nicholas Taleb's landmark Incerto series is an investigation of luck, uncertainty, probability, opacity, human error, risk, disorder, and decision-making in a world we don't understand, in nonoverlapping and standalone books. All four volumes—Antifragile, The Black Swan, Fooled by Randomness, and the expanded edition of The Bed of Procrustes, updated with more than 50 percent new material—are now together in one ebook bundle. ANTIFRAGILE "Startling . . . richly crammed with insights, stories, fine phrases and intriguing asides."—The Wall Street Journal Just as human bones get stronger when subjected to stress and tension, many things in life benefit from disorder, volatility, and turmoil. What Taleb has identified and calls "antifragile" is that category of things that not only gain from chaos but need it in order to survive and flourish. The resilient resists shocks and stays the same; the antifragile gets better and better. What is crucial is that the antifragile loves errors, as it incurs small harm and large benefits from them. Spanning politics, urban planning, war, personal finance, economic systems, and medicine in an interdisciplinary and erudite style, Antifragile is a blueprint for living in a Black Swan world. THE BLACK SWAN "[A book] that altered modern thinking."—The Times (London) A black swan is a highly improbable event with three principal characteristics: It is unpredictable; it carries a massive impact; and, after the fact, we concoct an explanation that makes it appear less random and more predictable. The astonishing success of Google was a black swan; so was 9/11. In this groundbreaking and prophetic book, Taleb shows that black swan events underlie almost everything about our world, from the rise of religions to events in our own personal lives, and yet we—especially the experts—are blind to them. FOOLED BY RANDOMNESS "[Fooled by Randomness] is to conventional Wall Street wisdom approximately what Martin Luther's ninety-five theses were to the Catholic Church."—Malcolm Gladwell, The New Yorker Are we capable of distinguishing the fortunate charlatan from the genuine visionary? Must we always try to uncover nonexistent messages in random events? Fooled by Randomness is about luck: more precisely, about how we perceive luck in our personal and professional experiences. Set against the backdrop of the most conspicuous forum in which luck is mistaken for skill—the markets—Fooled by Randomness is an irreverent, eye-opening, and endlessly entertaining exploration of one of the least understood forces in our lives. THE BED OF PROCRUSTES "Taleb's crystalline nuggets of thought stand alone like esoteric poems."—Financial Times This collection of aphorisms and meditations expresses Taleb's major ideas in ways you least expect. The Bed of Procrustes takes its title from Greek mythology: the story of a man who made his visitors fit his bed to perfection by either stretching them or cutting their limbs. With a rare combination of pointed wit and potent wisdom, Taleb plows through human illusions, contrasting the classical views of courage, elegance, and erudition against the modern diseases of nerdiness, philistinism, and phoniness.

### Eavesdroppings Random House Trade Paperbacks

With the same unique vision that brought his now classic Mars trilogy to vivid life, bestselling author Kim Stanley Robinson boldly imagines an alternate history of the last seven hundred years. In his grandest work yet, the acclaimed storyteller constructs a world vastly different from the one we know. . . . "A thoughtful, magisterial alternate history from one of science fiction's most important writers."—The New York Times Book Review It is the fourteenth century and one of the most apocalyptic events in human history is set to occur—the coming of the Black Death. History teaches us that a third of Europe's population was destroyed. But what if the plague had killed 99 percent of the population instead? How would the world have changed? This is a look at the history that could have been—one that stretches across centuries, sees dynasties and nations rise and crumble, and spans horrible famine and magnificent innovation. Through the eyes of soldiers and kings, explorers and philosophers, slaves and scholars, Robinson navigates a world where Buddhism and Islam are the most influential and practiced religions, while Christianity is merely a historical footnote. Probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power—and even love—in this bold New World. "Exceptional and engrossing."—New York Post "Ambitious . . . ingenious."—Newsday

### The Book of Signs Random House

"Schaffer is the real deal. His writing will knock you out." —J.A. Konrath WHEN EVIL KNOWS YOUR NAME Nothing fascinates rookie cop Carrie Santero more than serial killers. Now she's hunting down the sickest, most twisted psychopath she's ever faced—an "omnikiller." Unpredictable, unrelenting. A death machine beyond all evil. As the body count rises, Carrie enlists the help of Jacob Rein, a

brilliant, embittered former detective who has gone to the darkest corners of the killing mind. What he knows—what he can never unknow—could lead Carrie to the point of no return. The place she can no longer avoid. The place that has never stopped calling her . . . “A killer who sets a new standard for lethal danger.”—Lisa Scottoline “A stylish, attention-getting thriller. . . the most engaging pair of detectives I’ve seen in a long while.” —David Morrell “Gruesome and honest. Readers will find themselves fascinated.” —Booklist “Schaffer’s knowledge of detective work is evident.” —Library Journal

The American Yawp Knopf

In the modern Greek city of Thessaloniki, the ruins of a vast Jewish cemetery lie buried under the city’s university. Nearby is the site of the childhood home of one of the founders of the modern Turkish state. These are tantalizing reminders of what was once the bustling cosmopolitan city of Salonica, home not just to Greeks but to thousands of Sephardic Jews, Turks, Bulgarians, and Armenians living and working peacefully alongside one another. Thessaloniki is just one example among many of what used to be. Over the past two centuries, ethnic cleansing has remade the map of Central and Eastern Europe and the Middle East, transforming vast empires that embraced many ethnic groups into nearly homogenous nations. Towns and cities from Germany to Turkey still show traces of the vanished and nearly forgotten ethnic and religious communities that once called these places home. In *Terrible Fate*, Benjamin Lieberman describes the violent transformations that occurred in Salonica and hundreds of other towns and cities as the Ottoman, Russian, Austro-Hungarian, and German empires collapsed, to be reborn as the modern nation-states we know today. His book is the first comprehensive history of this process that has involved the murder and forced migration of tens of millions of people. Drawing upon eyewitness accounts, contemporary journalism, and diplomatic records, Lieberman’s story sweeps across the continent, taking the reader from ethnic cleansing’s earliest beginnings in Bulgaria, Greece, and Russia in the nineteenth century, through the rise of nationalism, both world wars, the Armenian genocide, the Holocaust, and the rise and fall of the Soviet empire, up to the breakup of Yugoslavia in the 1990s. Along the way he examines the decisive roles of political leaders—not only monarchs and dictators but also those who were democratically elected—as well as ordinary people who often required very little encouragement to rob and brutalize their neighbors, or who were simply caught up in the tide of history.

History of Humanity: From the third millennium to the seventh century B.C. New York : AMS Press  
Leading scholars discuss ideology and hotly contested post-structuralist theory.

**The Road to Xenu:Life Inside Scientology** UNESCO Publishing

The primary purpose of the United States Constitution is to limit Congress. There is no separation of church and state. The Second Amendment allows citizens to threaten the government. These are just a few of the myths about our constitution peddled by the Far Right—a toxic coalition of Fox News talking heads, radio hosts, angry “patriot” groups, and power-hungry Tea Party politicians. Well-funded, loud, and unscrupulous, they are trying to do to America’s founding document what they have done to global warming and evolution—wipe out the facts and substitute partisan myth. In the process, they seek to cripple the right of We the People to govern ourselves. In *Wrong and Dangerous*, legal scholar Garrett Epps provides the tools needed to fight back against the flood of constitutional nonsense. In terms every citizen can understand, he tackles ten of the most prevalent myths, providing a clear grasp of the Constitution and the government it established.

Deadlands Reloaded Dundurn

The latest thrilling installment in Ralph Compton's bestselling Gunfighter series. The law only caught up with the Venom Snakes and their bitter rivals, the Red Trail Gang, because they were so busy killing each other. Now, after twenty years in prison, Ashford Sinclair is broke and broken. Without his gang behind him, the once fearsome leader of the Snakes is reduced to eking out a solitary living as a fur trapper. One day, news comes that his son William has married the daughter of Henry Odell, erstwhile leader of the Red Trail Gang. Furious at his son's betrayal, Sinclair vows he'll never speak to him again. But when William is murdered in a land dispute and a gang of hired guns starts threatening his grandson next, Sinclair has no choice but to join forces with his most hated enemy—as the two outlaw grandpas ride for justice!

*Here I Stand* Black Rose Books Limited

Thomas Piketty's book *Capital in the Twenty-First Century* has enjoyed great success and provides a new theory about wealth and inequality. However, there have been major criticisms of his work.

*Anti-Piketty: Capital for the 21st Century* collects key criticisms from 20 specialists—economists, historians, and tax experts—who provide rigorous arguments against Piketty's work while examining the notions of inequality, growth, wealth, and capital.

*The Thief of Light* Rowman & Littlefield Publishers

The Reformation of the sixteenth century was a vast and complicated movement. It involved kings and peasants, cardinals and country priests, monks and merchants. It spread from one end of Europe to the other, and manifested itself in widely differing forms. Yet in spite of its diverse and complex character, to start to understand the Reformation you need know only one name: Martin Luther. Roland Bainton's *Here I Stand: A Life of Martin Luther* remains the definitive introduction to the great Reformer and is essential reading for anyone seeking to understand this towering historical figure.

**A Patriot's History of the United States** Harbour Publishing Company

*The Fifty-Year Wound* is the first cohesively integrated history of the Cold War, one replete with important lessons for today. Drawing upon literature, strategy, biography, and economics -- plus an inside perspective from the intelligence community -- Derek Leebaert explores what Americans sacrificed at the same time that they achieved the longest great-power peace since Rome fell. Why did they commit so much in wealth and opportunity with so little sustained complaint? Why did the conflict drag on for decades? What did the Cold War do to the country, and how? What was lost while victory was gained? Leebaert has uncovered an astonishing array of never-published documents and information, including major revelations about American covert operations and Soviet military activities. He has found, in the shadows of one of this century's great, epic stories, the sort of details and explanations that hit with the force of a lightning bolt and will change forever the way we think about our past.

*The New Latin American Left* Spectra

**CONFEDERATION** Once a mighty assembly of races spread across the galaxy, dedicated to peace and exploration, now stands on the brink of collapse. **AFTER THE INVASION** Twenty years after a devastating attack by the dreaded Swarm, Confederation lives in the shadow of its own legacy and in fear that their enemy will return. Now, the most advanced warship of its time will venture into Swarm territory on a mission of revenge. **THE FIRE RETURNS** In *Return Fire 1-3*, readers will experience the beginning of a new era in science fiction. Best-selling author Bernard Schaffer has assembled a wildly talented group of storytellers to create this new saga. Simultaneously paying homage to the most beloved franchise in history and twisting it to their own unique vision, the *Confederation Reborn* series is instantly familiar, and like nothing you've read before.
