History of
Africa marks a
major
breakthrough
in the
recognition of
Africa's
cultural
heritage.
Offering an

internal perspective of Africa, the eight-volume work provides a comprehensive approach to the history of ideas, civilizations, societies and institutions of African history. The volumes also discuss historical relationships among Africans as well as multilateral interactions with other cultures and continents.

Educational Planning BoD
- Books on Demand
This

publication contains a selection of papers submitted to five conferences held in European countries during 2000-2001, which explored the concept of plurilingualism focused on the development of principles and a framework for the promotion of teaching more than one foreign language in schools.

The History of "Punch"
Library of Alexandria
This book is

unique in bringing together theory, research, and practice about English encountered outside the classroom - extramural English - and how it affects teaching and learning. The book investigates ways in which learners successfully develop their language skills through extramural English and provides tools for teachers to make use of free time activities in primary and secondary

education. The authors demonstrate that learning from involvement in extramural English activities tends to be incidental and is currently underutilized in classroom work. A distinctive strength is that this volume is grounded in theory, builds on results from empirical studies, and manages to link theory and research with practice in a reader-friendly way. Teacher-educators, teachers and researchers of English as a foreign language and teachers of English as a second language across the globe will find this book useful in developing their use of extramural English activities as tools for language learning. [Learn for our planet](#) Vintage "Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: "bad sex," "dated" views about lesbians, and intersections with race and class. Through close reading of her writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalyti

c and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing Beauvoir is still good to think with today"--
The Churches of Paris John Benjamins Publishing
 Nadia Boulanger - composer,

critic, impresario and the most famous composition teacher of the twentieth century - was also a performer of international repute. Her concerts and recordings with her vocal ensemble introduced audiences on both sides of the Atlantic to unfamiliar historical works and new compositions. This book considers how gender shaped the possibilities that marked Boulanger's

performing career, tracing her meteoric rise as a conductor in the 1930s to origins in the classroom and the salon. Brooks investigates Boulanger's promotion of structurally motivated performance styles, showing how her ideas on performance of historical repertory and new music relate to her teaching of music analysis and music history. The book explores the way in which Boulanger's

musical practice relied upon her understanding of the historically transcendent masterwork, in which musical form and meaning are ideally joined, and show how her ideas relate to broader currents in French aesthetics and culture.

Landmine Monitor Report 1999
BRILL

In all parts of Asia, households devote considerable expenditures to private supplementar

y tutoring. This tutoring may contribute to students' achievement, but it also maintains and exacerbates social inequalities, diverts resources from other uses, and can contribute to inefficiencies in education systems. Such tutoring is widely called shadow education, because it mimics school systems. As the curriculum in the school system changes, so does the shadow. This

study documents the scale and nature of shadow education in different parts of the region. Shadow education has been a major phenomenon in East Asia and it has far-reaching economic and social implications. *Issues for Canadians* Gallup Press In Biological Time, Historical Time, 19th century scientific and literary works are analysed with regard to their mutual interactions,

special focus being placed on concepts and dimensions of time.

In this volume, language learning and professionalization are explored by addressing the existing gap between

pressing needs for enhanced soft skills in work environments wherein technology-mediated, multilingual communication is increasingly the norm, and current foreign language teaching and learning offerings in higher education.

Considering theoretical, methodological, and pedagogical perspectives for preparing language learners and teachers in/for the 21st

century, this volume's eight chapters underscore that research findings should inform the design of learning experiences so that people's communication needs in fast-changing work environments are met and the link between language education and professionalization, within a lifelong learning perspective, is sustained.

The Musical Work of Nadia Boulanger

<p>Europe This second edition updates a course which has proven to be a perfect fit for classes the world over. Engaging content and a strong focus on grammar and vocabulary combine to make this course a hit with both teachers and students. Popular course features have been refreshed with new content, including the imaginative reading and listening topics, 'Culture in</p>	<p>Mind', and 'Everyday English' sections. New for the second edition is a DVD-ROM with the Level 1 Student's Book containing games, extra exercises and videos featuring the photostories' characters as well as a 'Videoke' record-yourself function. There is a full 'Vocabulary bank' at the back of the book which expands upon lexical sets learned in the units. <i>Underwater</i></p>	<p><i>cultural heritage from World War I</i> UNESCO Publishing Saint Kitts and Nevis <u>Biological Time</u>, <u>Historical Time</u> Springer Science & Business Media At first sight it may appear strange that a volume of Progress in Pediatric Surgery should be devoted to the history of our specialty. One assumes that progress is concerned primarily with recent developments whilst history</p>
--	---	---

deals with matters of the past. However, in the past there has also been considerable progress in the development of our understanding of paediatric surgical problems, otherwise we would not have progressed to our present achievements. The editors, therefore, do not apologize for compiling this volume but, on the contrary, feel that the publication of this volume is

most timely. Modern paediatric surgery has now been practised for three generations. The handful of pioneers who were the founders of our specialty worked mainly before the last world war. A few dozen of the intermediary generation started work immediately after the war, while the new generation who are now dominating our specialty must be counted in thousands. Two factors

have radically altered paediatric surgery as practised by the intermediary and the present generation of surgeons. *Cultural Mediation in Language Learning and Teaching W. Norton & Company* Proceedings from a conference "A global assessment of the 1989 recommendation on the safeguarding of traditional culture and folklore" held at the Smithsonian

Institution June 27-30 1999. The purpose of the conference was to assess the implementation of the Recommendation (an international normative instrument adopted by UNESCO in 1989), to bring together points of view and perspectives on the Recommendation from around the world, and suggest ways in which the Recommendation might develop in the future so that

its purpose, the safeguarding of traditional culture and folklore, might be achieved.

Language learning and professionalization in higher education: pathways to preparing learners and teachers in/for the 21st century

UNESCO Publishing

Among the finest examples of European craftsmanship are the clocks produced for the luxury trade in the eighteenth century. The J.

Paul Getty Museum is fortunate to have in its decorative arts collection twenty clocks dating from around 1680 to 1798: eighteen produced in France and two in Germany. They demonstrate the extraordinary workmanship that went into both the design and execution of the cases and the intricate movements by which the clocks operated. In this handsome volume, each

clock is pictured and discussed in detail, and each movement diagrammed and described. In addition, biographies of the clockmakers and enamellers are included, as are indexes of the names of the makers, previous owners, and locations. *She Came to Stay* Cambridge University Press

 Mandy Hope loves animals. She knows all about them, because her parents are vets at the Animal Ark pet clinic. In this story, Mandy must find a new home for six fluffy kittens. *Historical Essays & Studies* Asian Development Bank
 Only 15% of employees worldwide are engaged at work. This represents a major barrier to productivity for

organizations everywhere – and suggests a staggering waste of human potential. Why is this engagement number so low? There are many reasons – but resistance to rapid change is a big one, Gallup’s research and experience have discovered. In particular, organizations have been slow to adapt to breakneck changes produced by information technology, globalization of markets for products and labor, the rise of the gig economy, and younger workers’ unique demands. Gallup’s 2017 State of the Global Workplace offers analytics and advice for organizational leaders in countries and regions around the globe who are trying to manage amid this rapid change. Grounded in decades of Gallup research and consulting worldwide -- and millions of interviews -- the report advises that leaders improve productivity by becoming far more employee-centered; build strengths-based organizations to unleash workers’ potential; and hire great managers to implement the positive change their organizations need not only to survive – but to thrive.
