Depuis que le programme de

commémoration historique a été inauguré par le gouvernement de l'Ontario en 1956, plus de 1 000 plaques ont été érigées d'un bout à l'autre de la province. La variété des sujets commémorés est étonnante, qu'il s'agisse de ruées vers les mines du nord de l'Ontario ou de l'invention de la vis à tête creuse ... de Harold Innis ou de Stephen Leacock ... de l'épidémie de typhus de 1847 ou de la découverte de l'insuline. La culture populaire est également bien représentée: "Beautiful Joe" commémore un roman célèbre dans le monde entier racontant l'histoire d'un chien ; "When You and I Were Young, Maggie" chante une ballade romantique très en vogue ; "Jumbo" marque l'emplacement où est mort un éléphant de cirque très aimé. L'histoire de

l'Ontario, tout comme sa géographie et ses habitants, est vaste et variée. Ce guide peut donc être utile, que l'on circule sur l'autoroute, se promène à la campagne ou flâne dans son propre quartier. Il reste encore tant à découvrir.

"Both a commentary on and a critical appreciation of the work of the early Pound. It starts off with a lucid introduction to Pound's technique in general, and to his imagist phase (during which the poems commented on in this book were written) in particular. In the critical passages Mr. Ruthven steers a sage middle course between the attitudes of uncritical adoration and wholesale rejection that mar so much of the literature on Pound. . . . informative without being pedantic, and exhaustive without being long-winded. . . .To turn to

Mr. Ruthven's Guide is to follow in the footsteps of an intelligent, sensitive and reliable scholar." --English Studies This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1969.

Before the 99% occupied Wall Street... Before the concept of social justice had impinged on the social conscience...

Before the social safety net had even been conceived... By the turn of the 20th Century, the era of the robber barons, Andrew Carnegie (1835-1919) had already accumulated a staggeringly large fortune; he was one of the wealthiest people on the globe. He guaranteed his position as one of the wealthiest men ever when he sold his steel business to create the United States Steel Corporation. Following that sale, he spent his last 18 years, he gave away nearly 90% of his fortune to charities, foundations, and universities. His charitable efforts actually started far earlier. At the age of 33, he wrote a memo to himself, noting ..".The amassing of wealth is one of the worse species of idolatry. No idol more debasing than the worship of money." In

1881, he gave a library to his hometown of Dunfermline, Scotland. In 1889, he spelled out his belief that the rich should use their wealth to help enrich society, in an article called "The Gospel of Wealth" this book. Carnegie writes that the best way of dealing with wealth inequality is for the wealthy to redistribute their surplus means in a responsible and thoughtful manner, arguing that surplus wealth produces the greatest net benefit to society when it is administered carefully by the wealthy. He also argues against extravagance, irresponsible spending, or self-indulgence, instead promoting the administration of capital during one's lifetime toward the cause of reducing the stratification between the rich and poor. Though written more than a century ago, Carnegie's words still ring

true today, urging a better, more equitable world through greater social consciousness.

Challenging the conventional trope that French environmentalism arose after WWII, Caroline Ford argues that a broad environmental consciousness emerged in France much earlier. In response to war, natural disasters, and imperialism, the bourgeoisie, along with politicians, engineers, naturalists, writers, and painters, took up environmental causes.
