This volume is addressed to researchers in the field of phraseology, and to teachers, translators and lexicographers. It is a collection of essays offering a comprehensive, modern analysis of phrasemes, embracing a wide range of subjects and themes, from linguistic, both applied and theoretical, to cultural aspects. The contrastive approach underlying this variety of themes allows the divergences and analogies between phraseological units in two or more languages to be outlined. The languages

compared here are both major and minor, European and non-European, and the text includes contrastive analyses of the most commonly investigated languages (French-German, English-Spanish, Russian-German), as well as some less frequently investigated languages (like Ukrainian, Romanian, Georgian and Thai), which are not as well-represented in phraseological description, despite their scientific interest.

I AM THE CITY Cities have always been important protagonists in our history, but now, more than ever, they are taking the leading role in our developing culture. The intensified urbanization and increasing importance of cities like London, Paris, New York and Mexico, which are becoming through their assets and appeal more prominent than the nations they belong to, is evident to us all. In this series, the most prominent cities in the world are given a chance to reassert their unique personalities and show us their individuality via a pictorial tour and compelling anecdotes. They can show off their exceptional monuments, both historical and contemporary, their particular ambience and flavor, their visual and cultural singularity - the things that mark them out in the face of the encroaching tide of homogeneity. The series brings not only revelation and discovery to new visitors, but also rediscovery and renewed enthusiasm to the cities' inhabitants, too easily blinded by their frenetic lifestyles to the extraordinary monuments, visual panoramas and street life they live amongst. "It's a pleasure to meet you, city!"
