Guide du Routard Charentes 2021 New York : D. Appleton

A horse's tomb that has become a place of pilgrimage, a tree held up by a pillar in the garden of a Sufi convent that would herald the end of the world if it fell down, Mustafa Kemal Atatürk's glass, a carpet that predicts the end of the Ottoman empire, fragments from the Black Stone of Mecca, the covering of a fountain from Pearl Harbor in the Pacific, a church under the protection of Muhammad, a synagogue that was a landmark for Ashkenazi Jews, a garment worn by the Prophet that was inadvertently ironed, a handful of hot ash that saved the Ottoman empire. Far from the crowds and the usual clichés, Istanbul is still a reserve of well-concealed treasures only revealed to those who know how to wander off the beaten track, whether residents or visitors. An indispensable guide for those who thought they knew Istanbul well, or who would like to discover the hidden face of the city.

Interior features on twenty creatives from Antwerp to New York, who all have one thing in common, namely a passion for plants. Bart Kiggen and Magali Elali visited florist Mark Colle, interior photographer Martyn Thompson and fashion designer Christian Wijnants among others. During their visits, the duo photographed these people's homes, focusing specifically on the presence of plants. The residents discuss their passion for plants, flowers and greenery in the accompanying text. The book also contains a handy index listing all the plants featured in the photographs, including their specific characteristics. AUTHOR: Photographer Bart Kiggen and journalist Magali Elali run the successful interior design blog Coffeeklatch, besides this, they also write features for various media outlets, including a weekly section in De Korgen Magazine, the lifestyle supplement of the Belgian daily De Morgen. On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATerre-EAG, and the National Park Service, under the aegis of US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture. Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation

and restoration, site preservation, studies in consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and microstructures. In discussions that focused on the future, the application of modern technologies and materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing.

Parce qu'elle choisit délibérément de rompre avec le passé, la Révolution française inaugure un siècle et demi de débats animés sur la place de l'histoire dans la société et sa fonction dans la constitution d'une identité nationale. Avec le temps se dessine l'image d'une France à la fois une et multiple, riche d'un passé propre mais aussi des passés singuliers des régions qui la constituent. Progressivement aussi, la référence à l'histoire se transforme, change de sens au point parfois de servir des idéologies aux antipodes de celles des pères fondateurs de l'identité républicaine. A telle enseigne que l'effondrement du régime de Vichy, après la guerre, signifie la fin d'une approche du passé qui aura marqué durablement la pensée européenne... Dans ce processus, la Flandre - région importante pour l'histoire de France et aussi creuset des influences latines et germaniques - va jouer un rôle décisif et pourtant encore peu connu. C'est cette histoire riche et fascinante que ce livre tâche de retracer, en privilégiant les manifestations les plus visibles de ce réveil, et en particulier l'architecture, qui en constitue sans aucun doute le plus bel héritage : tout un chapelet d'orgueilleux édifices inspirés du passé régional et qui, des deux côtés de la frontière, nous

rappellent que les identités flamande, belge et française sont le produit de ce long romantisme.

The Mass Ornament today remains a refreshing tribute to popular culture, and its impressively interdisciplinary writings continue to shed light not only on Kracauer's later work but also on the ideas of the Frankfurt School, the genealogy of film theory and cultural studies, Weimar cultural politics, and, not least, the exigencies of intellectual exile.

The Afterlives of the Terror explores how those who experienced the mass violence of the French Revolution struggled to come to terms with it. Focusing on the Reign of Terror, Ronen Steinberg challenges the presumption that its aftermath was characterized by silence and enforced collective amnesia. Instead, he shows that there were painful, complex, and sometimes surprisingly honest debates about how to deal with its legacies. As *The Afterlives of the Terror* shows, revolutionary leaders, victims' families, and ordinary citizens argued about accountability, retribution, redress, and commemoration. Drawing on the concept of transitional justice and the scholarship on the major traumas of the twentieth century, Steinberg explores how the French tried, but ultimately failed, to leave this difficult past behind. He argues that it was the same democratizing, radicalizing dynamic that led to the violence of the Terror, which also gave rise to an unprecedented interrogation of how society is affected by events of enormous brutality. In this sense, the modern question of what to do with difficult pasts is one of the unanticipated consequences of the

eighteenth century's age of democratic revolutions.

What is fascism? By focusing on the concrete: what the fascists did, rather than what they said, the esteemed historian Robert O. Paxton answers this question. From the first violent uniformed bands beating up "enemies of the state," through Mussolini's rise to power, to Germany's fascist radicalization in World War II, Paxton shows clearly why fascists came to power in some countries and not others, and explores whether fascism could exist outside the early-twentieth-century European setting in which it emerged. "A deeply intelligent and very readable book. . . . Historical analysis at its best." -The Economist *The Anatomy of Fascism* will have a lasting impact on our understanding of modern European history, just as Paxton's classic *Vichy France* redefined our vision of World War II. Based on a lifetime of research, this compelling and important book transforms our knowledge of fascism—"the major political innovation of the twentieth century, and the source of much of its pain."

The principal audience for this book seems to be deliberately and most certainly an academic one; that said, those practitioners from a business management or central/local government support-agency background might also find the text a useful resource. Intrinsically, those employed teaching and researching within the fields of entrepreneurship or regional economic development will find this publication an invaluable and indispensable reference tool. . . After an excellent, cohesive and informative introductory chapter, which places the book firmly in the field of regional entrepreneurship theory development, the reader is effortlessly prepared for the intellectually challenging read ahead. . . this book is well laid out and it is easy for the reader to pick up the thread of the argument, even after a lay-off. The endnotes after each chapter are useful and comprehensive, adding richness to the text through the additional information. The bibliography is as comprehensive as it is exhaustive. . . Professor Julien has given us a book that presents both an interesting and alternative perspective to the field of entrepreneurial cross-disciplinary research. Paul J. Ferri, International Journal of Entrepreneurial Behaviour and

Research . . . it is my view that this book gives a very important contribution for the understanding of development of local entrepreneurship, through its cross-disciplinary approach. I see the book is especially interesting from an entrepreneurship and a regional development perspective. . . this book should inspire research that takes a more holistic approach using different levels of analysis and applies it to economic development at a local/territorial level, when studying entrepreneurship. Einar Lier Madsen, International Small Business Journal The reader who is interested in entrepreneurship and/or regional development will find this book a welcome contribution to the field. Rainer Harms, Entrepreneurship and Innovation For too long, researchers have regarded local dynamism as the result of the actions of certain entrepreneurs. If this were the case, how could we explain the simultaneous presence of winning , stagnating or declining areas with very similar socioeconomic profiles within the same region? Departing from this restrictive and somewhat inadequate approach, Pierre-André Julien considers entrepreneurship as a collective behaviour specifically related to the dynamism of the milieu in which it develops. The author introduces a complex, innovative theory of local entrepreneurship, demonstrating that the emergence of new ventures and the development of existing enterprises cannot be understood without taking into account certain factors: locale, social capital, networking and entrepreneurial culture within a given area are all crucial to entrepreneurial growth. Expanding upon this theory, the book demonstrates how entrepreneurship can be fostered in

order to support collective development. Various forms of partnership among socioeconomic actors are then analysed to highlight the social conventions and entrepreneurial culture that connect and intensify the energies at the root of local dynamism. This highly original book represents a departure from entrepreneurship literature that is largely limited to the study of entrepreneurs behaviour. Its dynamic presentation of holistic theory will prove an extremely absorbing read for those with an academic or professional interest in business and management, entrepreneurship and regional development.

With *Building in France*, *Building in Iron*, *Building in Ferroconcretre* (1928)—published now for the first time in English—Siegfried Giedion positioned himself as an eloquent advocate of modern architecture. This was the first book to exalt Le Corbusier as the artistic champion of the new movement. It also spelled out many of the tenets of Modernism that are now regarded as myths, among them the impoverishment of nineteenth-century architectural thinking and practice, the contrasting vigor of engineering innovations, and the notion of Modernism as technologically preordained.

Rural escapes for those yearning for a simpler existence, by the creators of the wildly popular Instagram account Cabin Porn. Created by a group of friends who preserve 55 acres of hidden forest in Upstate New York, Cabin Porn began as a scrapbook to collect inspiration for their building projects. As the collection grew, the site attracted a following, which is now a huge and obsessive

audience. The site features photos of the most remarkable handmade homes in the backcountry of America and all over the world. It has had over 10 million unique visitors, with 450,000 followers on Instagram. Now Zach Klein, the creator of the site (and a co-founder of Vimeo) goes further into the most alluring images from the site and new getaways, including more interior photography and how-to advice for setting up a quiet place somewhere. With their idyllic settings, unique architecture, and cozy interiors, the Cabin Porn photographs are an invitation to slow down, take a deep breath, and feel the beauty and serenity that nature and simple construction can create.

Le propre du mobilier vintage est d'avoir marqué son époque, d'avoir laissé, de par son design ou son utilisation spécifique, une empreinte dans les esprits de plusieurs générations. De bonne qualité, fabriqué entre les années 1930 et les années 1980 avec les techniques et les matériaux d'alors, il a traversé les décennies jusqu'à aujourd'hui pour donner du style à nos intérieurs. Une seule pièce vintage a cette capacité unique de transformer l'ambiance d'un lieu. La rénovation du mobilier vintage ne s'improvise pas. Ébéniste de formation, Frédéric Plun partage ici son savoir-faire et sa passion : il livre ses techniques de rénovation, patiemment mises au point au cours des quinze dernières années. Articulé en deux parties, l'ouvrage propose tout d'abord un guide d'achat des pièces à rénover et répertorie l'outillage indispensable à cette activité. Il dispense ensuite les bases de la rénovation de meubles et d'objets réalisés dans des matériaux variés (bois, métal, plastique,

Formica...) en utilisant de multiples techniques transposables aux pièces que vous chinerez. Huit projets sont détaillés étape par étape et illustrés de photos décrivant tous les gestes. On y retrouve le mythique réfrigérateur Frigeavia, les chaises Tolix, la pendule Jaz, une table bistro recouverte de Formica, mais aussi un bureau industriel accompagné d'une chaise Bienaise, une lampe émaillée, l'incontournable classeur à rideaux... autant d'occasions d'aborder des difficultés spécifiques. Des conseils pratiques vous permettront de travailler dans les meilleures conditions et d'éviter les pièges. Un ouvrage technique exigeant, à la portée de tous les adeptes du style rétro.
