"Democrats have conducted a sustained assault on the spirit of compromise that binds the union together, and set the nation on the path to a one-party state."

"Nothing less than a handbook for the salvation of the United States of America."—DENNIS PRAGER "Exposes the outrages perpetrated by the Biden administration and the Democratic Left."—DINESH D'SOUZA "An ominous warning about what the future may hold if the present course is not reversed."—PETER SCHWEIZER

FINAL BATTLE exposes the real threat that Democrats pose to freedom. The rise of socialism and critical race theory, coupled with threats to the Electoral College and Senate, an independent judiciary, and the integrity of the electoral system, now threaten to destroy the traditions that bring Americans together — the heart of our democracy. Attacks on these quintessentially American customs codified by the Founding Fathers undermine the possibility of bipartisan solutions to common problems like viral pandemics and civil disorders. Americans now speak in different and antagonistic political languages, and the two parties are so polarized that the American way of life itself is at risk. In his devastating exposé of the Democrats' nefarious goals, New York Times bestselling author David Horowitz reveals the hallmarks of their strategies, including: The double standard in justice: Antifa and BLM versus January 6 Citizenship as disposable: granting noncitizens privileges like voting, welfare, and healthcare So-called "cancel culture" and collusion in the deplatforming of conservative voices "Empires and states rise and fall while everybody is watching. Although the watchers may be surprised when the actual collapse occurs, with the hindsight provided by the end itself, everybody can see how it fell." Read FINAL BATTLE before it's too late!

Under increasing pressure to raise graduation rates and ensure that students leave high school college- and career-ready, many school and district leaders may believe that, when students graduate with college acceptances in hand, their work is done. But as Benjamin L. Castleman and Lindsay C. Page show, summer can be a time of significant attrition among college-intending seniors—especially those from low-income families. Anywhere from 10 to 40 percent of students presumed to be headed to college fail to matriculate at any postsecondary institution in the fall following high school. Summer Melt explores the complex factors that contribute to this trend—the absence of school support, confusion over paperwork, lack of parental guidance, and the teenage tendency to procrastinate. The authors draw on findings from fields such as neuroscience, behavioral economics, and social psychology to contextualize these factors. Drawing on a series of research studies, they show how schools and districts can develop effective, low-cost, scalable responses—including counselor outreach, peer mentoring, and using text messages and social media—to help students stay on track over the summer. Summer Melt offers very practical guidance for schools and districts committed to helping their students make the transition to college.

The heroic feats of ring gladiators have taken wrestling fans on an emotional journey—living vicariously through every body slam, dropkick, and piledriver. The investment of the crowd is demonstrated by their roars of excitement, their cheers for their heroes, and their catcalls at nasty ring villains. (Un)Controlled Chaos: Canada's Remarkable Professional Wrestling Legacy re-lives those unforgettable moments between the ropes. It provides a fascinating snapshot of the world behind the curtain, and a glimpse into the lives of the men and women who have both competed in the ring and served as the very architects of the industry.

In *Reading in the Wild*, reading expert Donalyn Miller continues the conversation that began in her bestselling book, *The Book Whisperer*. While *The Book Whisperer* revealed the secrets of getting students to love reading, *Reading in the Wild*, written with reading teacher Susan Kelley, describes how to truly instill lifelong "wild" reading habits in our students. Based, in part, on survey responses from adult readers as well as students, *Reading in the Wild* offers solid advice and strategies on how to develop, encourage, and assess five key reading habits that cultivate a lifelong love of reading. Also included are strategies, lesson plans, management tools, and comprehensive lists of recommended books. Copublished with Editorial Projects in Education, publisher of *Education Week* and *Teacher* magazine, *Reading in the Wild* is packed with ideas for helping students build capacity for a lifetime of "wild" reading. "When the thrill of choice reading starts to fade, it's time to grab *Reading in the Wild*. This treasure trove of resources and management techniques will enhance and improve existing classroom systems and structures." —Cris Tovani, secondary teacher, Cherry Creek School District, Colorado, consultant, and author of *Do I Really Have to Teach Reading?* "With *Reading in the Wild*, Donalyn Miller gives educators another important book. She reminds us that creating lifelong readers goes far beyond the first step of putting good books into kids' hands." —Franki Sibberson, third-grade teacher, Dublin City Schools, Dublin, Ohio, and author of *Beyond Leveled Books* "Reading in the Wild, along with the now legendary *The Book Whisperer*, constitutes the complete guide to creating a stimulating literature program that also gets students excited about pleasure reading, the kind of reading that best prepares students for understanding demanding academic texts. In other words, Donalyn Miller has solved one of the central problems in language education." —Stephen Krashen, professor emeritus,

A Guide to Choosing Your Children's Schools & Monitoring Their School Experiences is a must read for all current and prospective parents, ideally before their children reach school age. It will help them plan ahead to ensure successful educational experience for their children. The first part of the book draws attention to various factors parents should, but do not always, consider that affect their children's education. For example, what school is best for my child: Public or private; Charter, County or City school? Where you buy a home may take these choices out of your hands! The book challenges parents to use readily available information in print and on the internet, regarding school academic history, location, resources, curriculum and extra-curricular offerings, to plan ahead. It encourages parents to make deliberate choices that would position their children in the neighborhoods that would place them in the best schools. The second part of the book argues for, and illustrates, why parents should closely monitor their children's experiences from pre-school through high school, even in the best of schools. The book concludes with suggestions on various ways parents can forge effective partnerships with the school/teacher to facilitate a successful experience for their children/ward.

Requiem for a Lost City shows us the reality of Civil War Atlanta from the eve of

secession to the memorials for the fallen, through the memories of a participant. Sallie Clayton would have been the same age as the fictional Scarlett O'Hara during the Civil War. Sallie Clayton's memoirs, however, are not a work of fiction but bittersweet reminiscences of growing up in a doomed city in the midst of losing a war. Although her memoirs provide invaluable detail on Civil War Atlanta, they also tell of her personal experiences on a plantation in Montgomery, Alabama, and in postwar Augusta and Athens. Sallie Clayton belonged to one of Georgia's wealthiest and most prominent families. Her memoirs are colored by the losses suffered by her family. Robert Davis's introduction to this work illustrates the background of the Claytons, Sallie's writings, and Civil War Atlanta, providing a balanced account of life at "the crossroads of the Confederacy." The introduction also provides a corrective to the popular, *Gone With the Wind* view of Civil War Atlanta.

EGO Easing God out, No, Keep Him In In this fictional thriller, Bill Sheppard, a business owner of a human resource consulting firm, has a supernatural life-altering experience with God, coupled with a miracle-filled Christian crusade trip to Africa. Once he returned, he has a God-given purpose to impact African American high school students, shifting their paradigm from apathy to a confidence originating from personal business

ownership. With uncanny assistance from a mysterious ally, Don Abad, which turns out to be an agent of God aiding Bill in his mission, or is he? After a short eighteen months, the organization's exponential growth to 550,000 exceeded Bill's wildest imagination, accomplished through unlikely partnerships with a school superintendent and three principals which laid their respective jobs on the line for the success of the EGO movement. Initially launched in the three worst-performing inner-city schools, the attendance exploded to 2,500 in six weeks. Training sessions were designed to inspire the students to commit to a personal paradigm shift deducting that their perception of the world was flawed as was the perception of the news media regarding inner-city students.

Collaboration now became their battle cry. The suspense-filled end of the book has a couple of unexpected twists that will have the reader invigorated, going back to find out how they missed that clue. With Bill having an Abraham-Isaac type of sacrificial decision which could derail the entire EGO movement or cost Bill his life, all consummated during an interview on The Tonight Show.

In *Black Mosaic: Essays for Post-Racial America*, Richard Kenyada assesses the progress we've made in our quest to find the key element that unites us as Americans and, further, as human beings. The term "post racial" popped up after the first Obama victory, but the mood of the country has not reflected that kind of hope. In many ways, Americans seem to be drawing their own lines in the sand. But it's no longer the historic us-against-them of the Cold War era. The lines are being drawn between Americans - races, classes, genders, and sexual orientation.

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.
