A groundbreaking book  
that pulls back the

Die Service-Public-

curtain on the terrorist movement no one is talking about Women's rights activist Laura Bates has been the target of many misogynistic attacks online: from hate-fueled Twitter rants to vivid descriptions of her own rape and even death threats. At first, the vitriol seemed to be the work of a small handful of individual men... but over time, the volume and consistency of the attacks hinted at something bigger and more ominous. As Bates followed the thread of online misogyny farther into the corners of the internet, the spiral of hateful and toxic rhetoric deepened until she found an unseen, organized movement of thousands of anonymous men

wishing violence (and worse) upon women—the terrorism no one is talking about. *Men Who Hate Women* examines the rise of secretive extremist communities who despise women as Bates traces the roots of misogyny across a complex spider web of groups extending from Men's Rights Activists to trolls and the incel movement. Drawing parallels to other extremist movements around the world, including white nationalism, Bates shows what attracts men to the movement, how it grooms and radicalizes boys, how it operates, and what can be done to stop it. Most urgently of all, she follows the pathways this extreme ideology has taken from the darkest corners of the

internet to emerge covertly in our mainstream media, our playgrounds, and our government. Going undercover on and offline, Bates provides the first comprehensive look at this under-the-radar phenomenon, including eye-opening interviews with former members of these communities, the academics studying this movement, and the men fighting back. By turns fascinating and horrifying, *Men Who Hate Women* is a broad, unflinching account of the deep current of loathing toward women and anti-feminism that underpins our society and is a must-read for parents, educators, and anyone who believes in equality for women. "Men Who

*Hate Women* has the power to spark social change."—Sunday Times

*Entangled: Teen This Festschrift* assembles 32 contributions devoted to K. Lawson Younger, Jr. by his colleagues and students from North America, Israel and Europe. In accordance with significant topics of his own scholarly oeuvre the articles focus on Old Testament and Ancient Near Eastern studies. Among many other topics the relations of "Deuteronomy 13 and the Succession Treaty of Esarhaddon" are explored as well as "Rituals in the Gideon Narrative (Judges 6-8)", "Deities in the Ammonite Personal

Names" and "the textual evidence for "The 'Priests' of Ugarit". Archaeological contributions focus on- to list just a few-"The Carmel in the Bronze and Iron Ages", "Deer Antlers in Iron Age I Cultic Contexts at Tel Abel Beth Maacah" and the "Archaeological Evidence of Priests and Priesthood in Iron Age Israel and Judah". Linguistic and cultural studies evaluate recent studies of Amorite and examine "East as Symbolic Space" and raise the question of "Aramaean Identity" in Iron Age Syria.

Some social issues and practices have become dangerous areas for academics to research and write about. 'Academic freedom' is increasingly

constrained, not just by long established 'normal' factors (territoriality, power differentials, competition, protectionism), but also by the increased significance of social media and the rise of identity politics (and activists who treat work which challenges their world view as abusive hate-speech). So extreme are these pressures that some institutions and even statutory bodies now adopt policies and practices which contravene relevant regulations and laws. This book seeks to draw attention to the limiting and damaging effects of academic 'gagging'. The book, drawn from a special edition of *Societies*, offers an eclectic series of international articles

which may annoy some people. The book challenges taken for granted mainstream assumptions and practices in a number of areas, including gender mainstreaming, social work education, child sexual abuse, the ethnic disaggregation of population groups, fatherhood and masculinity, the erosion of democratic legitimacy, the trap of victimhood and vulnerability, employment practices in universities, and the challenges presented by the widespread and deliberate suppression of scholarship and research. In an analytic postscript Laurent Dubreuil discusses the nature of identity politics and the manner in which its effects can be identified across the

many topics covered in these challenging articles.

Die Corona-Krise hat praktisch über Nacht alte Sicherheiten infrage gestellt. In ungeahnter Deutlichkeit ist offensichtlich geworden, wie krisenanfällig unser System ist und wie verletzlich nicht nur die "Schwachen", sondern auch die vermeintlich "Starken" sind. Beat Ringger und Cédric Wermuth erheben leidenschaftlich die Stimme gegen eine Politik, die sich unfähig zeigt, den inzwischen mannigfachen Krisen unserer Zeit zu

begegnen: Klima, Ungleichheit, Care. Sie stellen dem Nihilismus des Profits eine politische Ethik des guten Lebens für alle entgegen. Sie fragen, was das für die Zukunft unserer Gesellschaft nach Corona bedeutet. Dafür entwerfen Ringger und Wermuth einen realistischen und zugleich kühnen Plan: die Service-Public-Revolution. Denn die Covid-19-Pandemie deckt auf, wie brüchig Gesundheitsversorgung und Existenzsicherung in vielen Ländern sind. Nur wenn wir die Reichtümer dieser Welt drastisch rückverteilen und die zentralen Infrastrukturen unserer Gesellschaft der destruktiven Profitlogik entziehen, können wir dem permanenten Krisenmodus

entkommen. Die notwendigen Schritte auf diesem Weg zeigt dieses Buch.

Covid-19: The Great Reset Vandenhoeck & Ruprecht

Nach dem Fall des Eisernen Vorhangs im Jahr 1989 fegte ein kapitalistischer Sturm über die Welt. Was mit Ronald Reagan und Margaret Thatcher begonnen hatte, erfasste schließlich ganz Europa: das Ende des Sozialstaats, eine umfassende Privatisierungswelle und die weitgehende Selbstausschaltung parlamentarischer Opposition. Die Sozialdemokratie beging Selbstmord, indem sie sich dem neoliberalen Ansturm fügte, und die Grünen wurden zu Helfershelfern imperialistischer

Kriege. Das war die Geburtsstunde der "extremen Mitte", der Parteien an der Macht und ihrer wirtschaftlichen Antreiber. Extrem sind die Folgen ihrer Wirtschafts- und Sozialpolitik ebenso wie die politische Zementierung eines gesellschaftlichen Konsenses. Der bekannte britisch-pakistanische Autor und Historiker Tariq Ali schreibt dazu: "Zeitgenössischer Kapitalismus verlangt (...) Schiedsrichter, die im Streit zwischen Unternehmen und über Eigentumsrechte entscheiden, aber eine wirkliche Notwendigkeit für eine demokratische Struktur besteht nicht, außer für die Schaufenstergestaltung. Wie lange sich

unsere Herrscher noch die Mühe machen werden, die Formen der Demokratie zu wahren, während sie sie eines jeden wahren Inhalts berauben, ist ein Thema für eine ernsthafte Debatte." Mit diesem Buch soll diese Debatte angestoßen werden. Zwei Beiträge von Tariq Ali aus seinem Buch "The Extreme Centre" bilden den Rahmen des Bandes. Davon ausgehend haben vier bekannte Kritiker der gegenwärtigen Herrschafts- und Wirtschaftsordnung ihre Texte verfasst. Heiner Flassbeck ortet auf der europäischen Ebene die deutschen Staatenlenker als "extreme Mitte" in Europa und ihr Beharren auf der Austeritätspolitik als

Spiel mit fatalen Folgen. Rainer Mausfeld zeigt, wie der Aufstieg der Elitenherrschaft und der Abbau von Demokratie möglich ist, indem diese von einer gewaltigen Propagandaindustrie und einer systematischen Beeinflussung des gesellschaftlichen Bewusstseins flankiert werden. Wolfgang Streeck erläutert die Verdrängung der Kosten der sogenannten Globalisierung durch die "extreme Mitte" und ihre katastrophalen Folgen am Beispiel der Maßnahmen zur Corona-Epidemie. Und Peter Wahl geht dem "Fetisch Europa" auf den Grund und stellt fest, dass eine radikale Reform der EU

unausweichlich wäre, um der Herrschaft der "extremen Mitte" etwas entgegenzusetzen. *War for Eternity* Spektrum der Wissenschaft Masterarbeit aus dem Jahr 2020 im Fachbereich Informatik - Technische Informatik, Note: 1,0, Fachhochschule Kaiserslautern Standort Zweibrücken, Sprache: Deutsch, Abstract: Die Zeiten, in denen die Unternehmen getreu dem Motto "Business as usual" leben konnten und dabei wettbewerbsfähig blieben, sind vorbei. Um auf dem Markt mitzuhalten und dabei noch für potenzielle Kunden aus der Masse hervorzustechen, müssen die Unternehmen die "Time-to-market" auf

ein Minimum bis hin zu "On-Demand"-Auslieferung via OTA reduzieren. Dies wird bereits von einigen disruptiven Herstellern wie z.B. Tesla getan und führt nachweislich zu hoher Kundenzufriedenheit. Besonders bei den alteingesessenen Unternehmen, in der Regel OEMs, fällt auf, dass diese immer häufiger von der Komplexität der ständig steigenden Kundenanforderungen überfordert sind und es immer häufiger vorkommt, dass Liefertermine nicht eingehalten werden können und die Qualität der Software darunter leidet. In der IT-Welt wurde gerade dies durch die Einführung der kollaborativen DevOps-Kultur ermöglicht. Der

Fokus der Methoden liegt dabei auf schnellerem Feedback für die Entwickler und der damit einhergehenden Möglichkeit der schnelleren Auslieferung von Software-Verbesserung für den Kunden. Dabei muss zwischen der reinen Webentwicklung und der Embedded-Systementwicklung unterschieden werden. Gerade bei der Einführung der DevOps-Methoden in der Embedded-Systementwicklung verlaufen die ersten Schritte im Vergleich zur Webentwicklung nicht geradlinig. Besonders für Unternehmen aus dem Embedded-Systementwicklungsbe reich lässt sich daher in den letzten Jahren ein stetig steigender

Beratungsbedarf beobachten. Das vorliegende Praxisbeispiel soll die Idee hinter der Masterarbeit verdeutlichen: Der Kunde möchte sich über den Ist-Zustand seiner eigenen Entwicklungsmethodik sowie auf ihn zukommende Kosten bei nötiger Aktualisierung informieren. Der Kunde erwartet dabei eine individuelle Beratung mit anschließender Umsetzung zum Thema DevOps, Systementwicklung und eine Einschätzung des ROI. Das Ziel ist es somit, die Zufriedenheit des Kunden zu steigern, eine schnelle Erfassung und Darstellung des Ist-Zustands zu liefern, einen Überblick über entstehende Kosten

bei Aktualisierung zu geben und dabei die langfristige Ersparnis bei Neuerung aufzuzeigen. Aufbau der Arbeit: 1) Analyse bestehender Modelle mit Fokus auf Embedded-Systementwicklung 2) Konzepterstellung eines Kompetenzmodells in Verbindung mit einem ROI- / Kostenmodell 3) Evaluierung der beiden Modelle durch interne und externe Projekte 4) Fokus auf Gewährleistung von Effizienz inklusive Gewichtung nach Signifikanz und Relevanz

 In the tradition of the million-copy-bestseller SAS Survival Guide, former SAS paratrooper Bear

Grylls—the world’s most famous survival expert—teaches the necessary skills for eating in the wild. “There’s no getting away from it; I’ve eaten some pretty extreme things in my time—live tarantulas, raw goat testicles, elephant dung, you name it. In a situation when your life depends on it, you need to put your prejudices aside to keep your stomach filled and your strength up. Whether it’s mastering the art of foraging and cooking up a tasty feast around the campfire or learning about the more extreme end of wild food (ever tried a scorpion kebab?), there’s a lot to learn when it comes to dinner time in the wild. Extreme Food will teach you all the

necessary skills and techniques to get your teeth into meals you might never have thought of as food in the first place—and, crucially, how to recognize plants and animals that might end up doing you more harm than good. In today’s world, we rarely need to venture beyond the local supermarket and we turn our noses up at the thought of snacking on bugs and grubs. But out in the wild, Mother Nature has provided us with a plentiful supply of nutritious—if not always delicious—food for the taking. And when needs must, we just have to know where to look. Some of it might take you out of your comfort zone. Some of it might turn your stomach. But it’s

saved my life more than once. And one day, it might save yours . . .”—BEAR GRYLLES

Als SAS-Soldat war es Joe Gardners Aufgabe, die gefährlichsten Gegner des Empires in mitunter entlegenen und trostlosen Winkeln der Welt auszuschalten.

Verlieren war dabei nie eine Option gewesen.

Nun aber steht er vor seiner bislang härtesten

Herausforderung: Bei einem Undercover-Einsatz in Afghanistan verliert Gardner eine Hand und muss sich aus dem aktiven Dienst zurückziehen. Er taucht unter. Doch egal wie unsichtbar er sich auch macht – das Schicksal scheint ihm keinen Ruhestand zu gönnen.

Ein Anruf von seinem alten Kameraden und Kriegshelden John Bald führt ihn nach Rio de Janeiro. John steckt in Schwierigkeiten, mitten im brodelnden Hexenkessel der Favelas. Eine der brutalen Banden will seinen Kopf, und ohne Gardners Hilfe ist er so gut wie tot. Doch was als einfache Rettungsmission beginnt, wird schnell zu einem gnadenlosen Kampf ums Überleben, der von den Slums Brasiliens bis in die eisigen Steppen Sibiriens reicht. Verfolgt von den besten Agenten des MI6 und skrupellosen ehemaligen Kameraden muss Gardner auf all seine Fähigkeiten und Instinkte zurückgreifen, um seinen bisher schwierigsten Gegner

zur Strecke zu bringen – bevor es zu spät ist. Chris Ryan, der Erfinder der erfolgreichen TV-Serie "Strike Back", befördert Sie mit seiner Extreme-Reihe direkt ins explosive Geschehen. Und wer die TV-Serie kennt, weiß, was ihn erwartet. "Extreme" ist atemlose Actionkost, die wirklich hält, was sie verspricht. Wer seit Jahren vergeblich auf einen echten kompromisslosen Actionkracher wartet und zudem mit Spielen wie "Call of Duty" oder "Medal of Honor" etwas anfangen kann, wird hier definitiv auf seine Kosten kommen.

“essential” (Jane Mayer) account of the dangerous marriage of plutocratic economic priorities and right-wing populist appeals — and how it threatens the pillars of American democracy. In Let Them Eat Tweets, best-selling political scientists Jacob S. Hacker and Paul Pierson argue that despite the rhetoric of Donald Trump, Josh Hawley, and other right-wing “populists,” the Republican Party came to serve its plutocratic masters to a degree without precedent in modern global history. To maintain power while serving the 0.1 percent, the GOP has relied on increasingly incendiary racial and cultural appeals to its almost entirely white base. Calling this

How does artistic practice lead to the production of knowledge? How does, in turn, artistic knowledge relate to its material base? How does contingent materiality guide the artist towards finding form and developing a statement? This volume is dedicated to the object as a process in order to offer new insights into the ways the object - broadly

construed, comprising digital and other non-classical objects - becomes an active element in artistic practice.

This is book four in the A Glimpse into Hell series. Brad Johnson, a thief and lowlife, tortured and killed Kenneth Evans' beloved pet, Roxie, during a burglary. Kenneth wanted to exact revenge against Brad in the most horrific way possible, so he sought out Seth Coker, a notorious vigilante. Kenneth didn't realize the door he was opening would unleash a wrath of vengeance like no other. He was instantly drawn into Seth's world. A world of torment and terror equal to the horrors

found in the deepest and darkest parts of Hell. A world filled with violence and agony. A world of pure chaos. In this story, Seth Coker and Kenneth Evans, torture lowlifes that have been cruel to animals. Filled with gruesome and sadistic acts of punishment, this book is not for the meek. Only the seasoned extreme-horror reader should embark on this journey. WARNING! EXTREME-HORROR This book is extremely gruesome and contains over the top, inhumane, filthy and sadistic torture scenes combined with political incorrectness and dark humor. May be disturbing to sensitive readers.

The study is a fresh interpretation of the Roman foundation myth and one of the most important Roman festivals - the Lupercalia, an annual celebration of youth and sexuality by Roman men and women. Written with clarity and force the book spans the whole of Roman history and takes the Lupercalia back to its Indo-European roots by presenting clear parallels between Roman and Indian traditions.

"The Corona crisis and the Need for a Great Reset" is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems, and what changes will be needed to create a

more inclusive, resilient and sustainable world going forward. Thierry Malleret, founder of the Monthly Barometer, and Klaus Schwab, founder and executive Chairman of the World Economic Forum, explore what the root causes of these crisis were, and why they lead to a need for a Great Reset. Theirs is a worrying, yet hopeful analysis. COVID-19 has created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, at least to a certain extent, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and

to show the deficiencies which were manifest in our global system, even before COVID broke out.

A volume in honour of Angela Locatelli The book explores the significance of literary translation and interpretation, in the widest sense of terms, as multiple processes of meaning and cultural transfer, by investigating how and why literature can be considered as a repository and a disseminator of knowledge and values. Featuring essays by a number of scholars focusing on a wide range of literary and critical texts of different nations and cultures and

encompassing the last three centuries, this book intends to offer a contribution to the study of translation and interpretation as literary processes of cultural and epistemic dissemination of knowledge from both a theoretical and a practical perspective. *Crave Promedia Verlag*

 An explosive and unprecedented inside look at Steve Bannon's entourage of global powerbrokers and the hidden alliances shaping today's geopolitical upheaval. In 2015, Bloomberg News named Steve Bannon "the most dangerous political operative in America." Since then, he has grown exponentially more powerful—and not only in the United

States. In this groundbreaking and urgent account, award-winning scholar of the radical right Benjamin Teitelbaum takes readers behind-the-scenes of Bannon's global campaign against modernity. Inspired by a radical twentieth-century ideology called Traditionalism, Bannon and a small group of right-wing powerbrokers are planning new political mobilizations on a global scale—discussed and debated in secret meetings organized by Bannon in hotel suites and private apartments in DC, Europe and South America. Their goal? To upend the world order and reorganize geopolitics on the basis of archaic values rather than modern ideals of

democracy, freedom, social progress, and human rights. Their strenuous efforts are already producing results, from the fortification of borders throughout the world and the targeting of immigrants, to the undermining of the European Union and United States governments, and the expansion of Russian influence. Drawing from exclusive interviews with Bannon's hidden network of far-right thinkers, years of academic research into the radical right, and with unprecedented access to the esoteric salons where they meet, Teitelbaum exposes their considerable impact on the world and their radical vision for the future.
