Use "I Am" Affirmations to guide consciousness into manifestation - a process so simple even a child can accomplish miracles. To be effective as Masters we must cut through the illusion of a separate self identified with ego, and return to the consciousness of the Source, the I AM THAT I AM. In that oneness there is no separation between thought and reality, between energy and matter. You are one with all, and all is a part of you. Hence, your thoughts manifest instantaneously. The only obstacle to that manifestation is habitual identification with limitation. The purpose of this book is to give simple yet powerful instruction that will enable you to realize the purpose of your being and break the habitual identification with the lower self. Through meditation on these powerful affirmations you can make the transition to being the Higher Self in thought, word and deed. Use affirmations to say "Yes" to life, to what God wants to come forth. When you align your will with Divine Will every affirmation manifests results instantaneously.

"Awaken to the fact that your thought and feeling in the past have built—created—the inharmony of your world today. Arise! I say, Arise! and walk with the Father—the "I AM"—that you may be free

from these limitations. Life, in all Its Activities everywhere manifest, is God in Action; and it is only through lack of the understanding of applied thought and feeling that mankind is constantly interrupting the pure flow of that Perfect Essence of Life which would, without interference, naturally express Its Perfection everywhere."

Bored with their work, three Milanese editors cook up "the Plan," a hoax that connects the medieval Knights Templar with other occult groups from ancient to modern times. This produces a map indicating the geographical point from which all the powers of the earth can be controlled—a point located in Paris, France, at Foucault's Pendulum. But in a fateful turn the joke becomes all too real, and when occult groups, including Satanists, get wind of the Plan, they go so far as to kill one of the editors in their quest to gain control of the earth. Orchestrating these and other diverse characters into his multilayered semiotic adventure, Eco has created a superb cerebral entertainment.
